Tabletops Beyond the Wow Factor:
Understanding User Engagement and
Experiences: Camara, C., Maiwand, H.,
Addy, C., Wu, J., Bardzell, S. (2009),
Interactive Tabletops and Surfaces

Contributor to uxbydesign.org

GameZombie.tv Updated Design

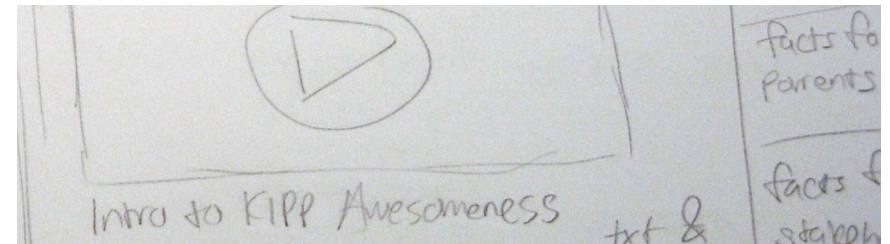

GameZombie.tv is a web media production company that creates web videos that center around gaming. I helped their user experience by helping to conduct user research, sketching, wireframing, information architecture, specifications, and strategy. Through this work, the company won two 2010 Student Webby awards for the site.

Their passion and their time help our students feel safe and secure. Our volunteers have also</p>	Our stance over 90% beyond"
---	---	-----------------------------

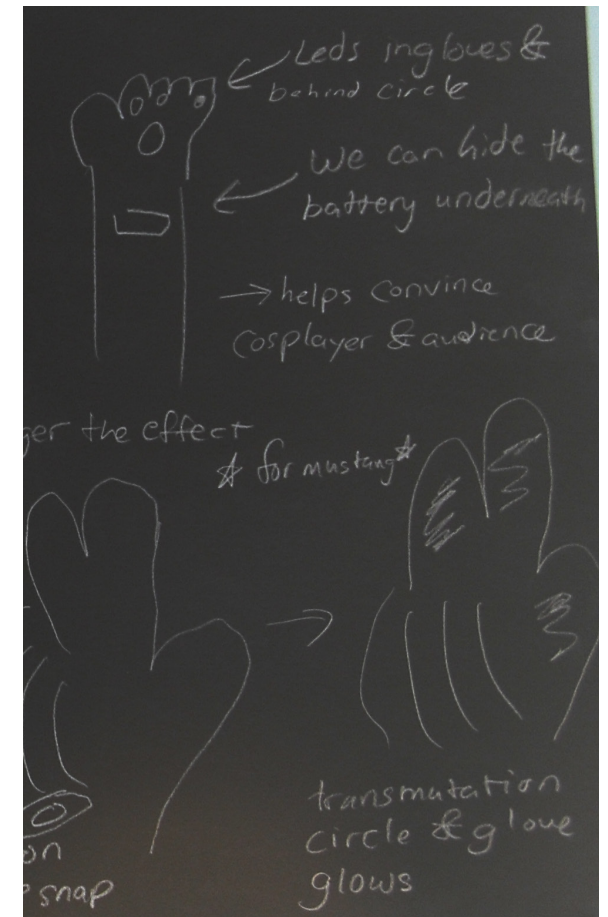

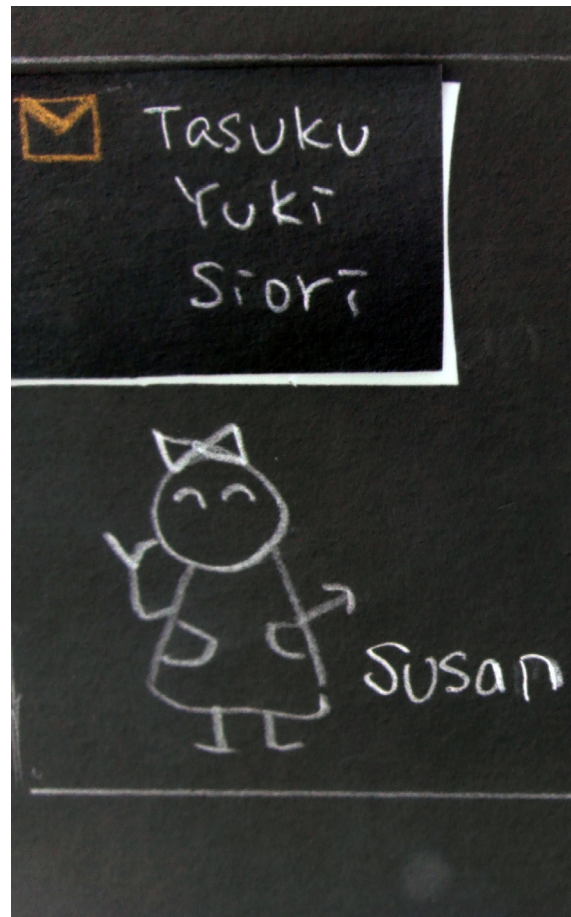

KIPP:Indy is a charter school serving the Indianapolis, Indiana area. I was on a team that helped to improve the site's organization through cardsorting. I additionally helped to contribute sketches, wireframes, and implementation details with my prior experience with Wordpress.

Tales of Badges Mobile App

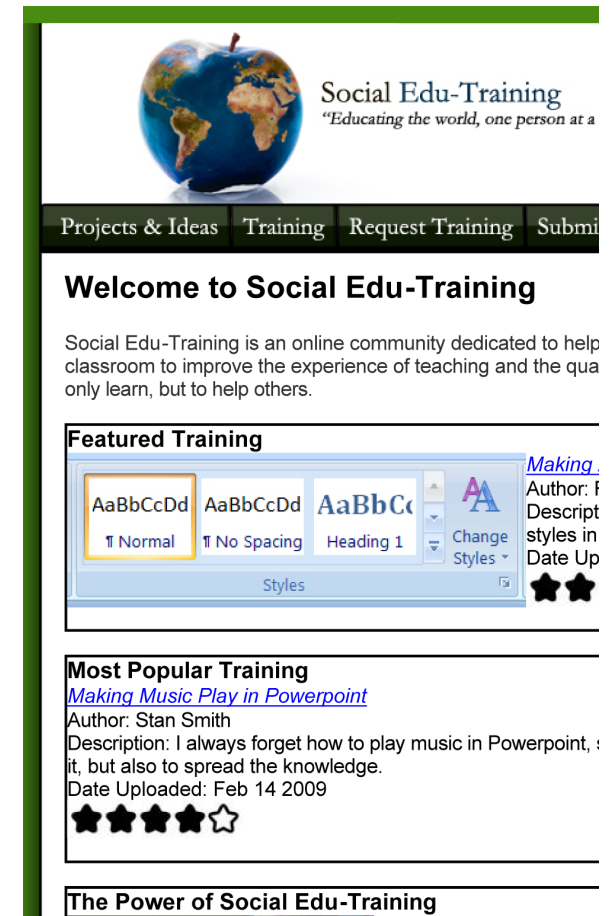

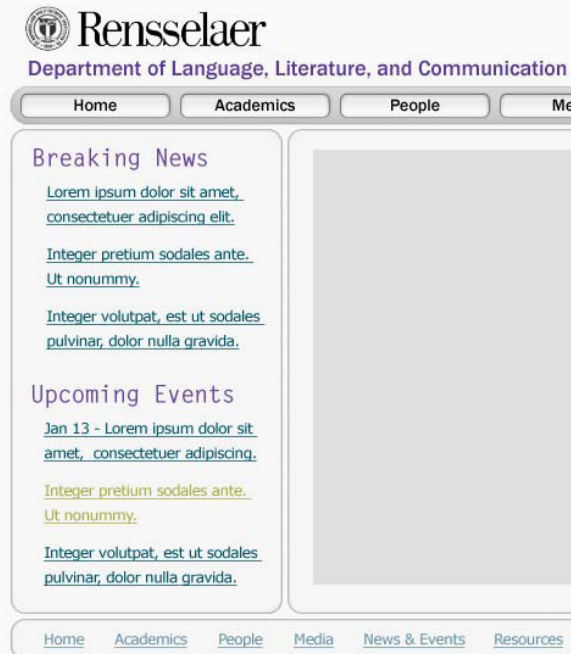

Cosplay is the art of becoming a character from popular culture and is performed at conventions. I designed a mobile application to help attendees identify and engage with the cosplayers in attendance. This design was based in insights learned from attending a convention in costume, paper prototyping, and an HTML prototype.

Additional Design Samples

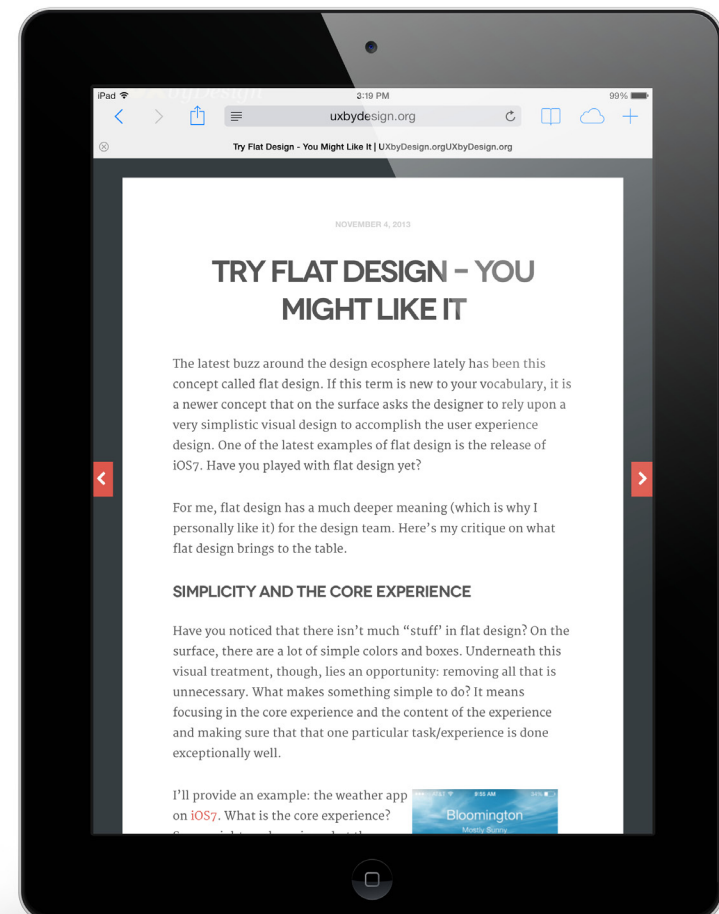

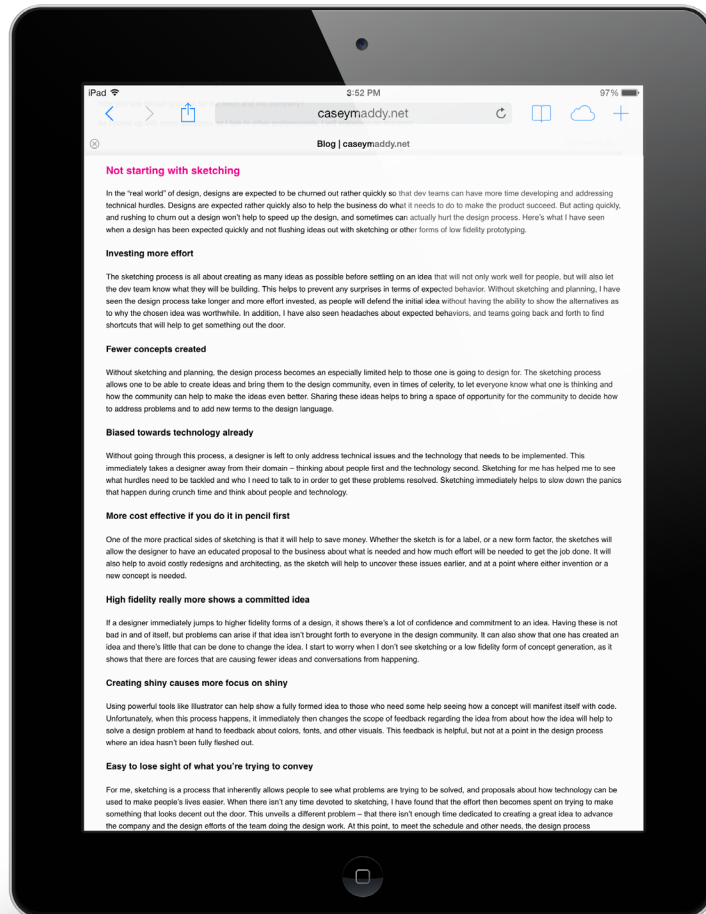

These are some sketches for a museum exhibit to teach the about space junk surrounding the earth, an application on a flip phone that allows a group of tourists to communicate with each other, and a wearable glove that allows the wearer to act as an anime military hero.

Additional Design Samples

These are some mockups of a touchscreen universal remote control, an updated version of the Literature, Language, and Communication department's website, and a concept for a website that would allow teachers to post ideas and tutorials on how to prepare and deliver lessons to their students.

Sharing Knowledge About User Experience

As a user experience designer, I help to contribute to our field by sharing personal experiences, blogging about design, reading current literature, and providing design critique. I share these experiences on my personal blog, uxbydesign.org, and LinkedIn.
